KEY FINDINGS

Executive Summary:

Revenue declined from \$88M in 2022 to \$87M in 2023 before recovering to \$88M in 2024 — indicating a stagnant business with no real growth over 3 years.

Customer Analysis:

Contract customers generate the highest average revenue per load at \$46K compared to Spot at \$40K and Dedicated at \$33K — making contract retention the most critical revenue priority.

Route & Maintenance:

Peterbilt trucks account for the highest fleet downtime at 14.1K hours — indicating an urgent need to evaluate Peterbilt's maintenance schedule or consider fleet replacement.

KEY FINDINGS

Safety Analysis:
David Miller has 7 incidents all at his fault with \$118K in claims — yet remains active, representing a direct liability to the business.
Robert Moore has 3 incidents with \$105K in claims and zero at fault — a victim of other drivers, not a risk.
